

# SNARES

## Dakotaline Snares - Loaded for Speed

Dakotaline Snares gives trappers 3 options of snare color Standard, Ghost Rider, and Pale Rider. Ghost Rider and Pale Rider are cleaned, dyed, and blend in to minimize refusals. Each snare is test fired to insure quality. All Dakotaline Snares are Loaded for Speed, NO Backing Out. Dakotaline Snares Have been tested over thousands of trapline miles. Floating deer stop-a tiny nut on the cable, just crimp, if needed or let it float.

## Dakotaline Coyote Snares

Heavy Duty Dakotaline 9 Gauge end swivel.3/32nd cable. These snares feature the following:

- A rugged, reusable, Blackdog Mini-camlock
- Poly support collar designed to fit #9 or #11 support wire.
- Heavy Duty Dakotaline 9 Gauge end swivel.

Comes with a tiny "floating" deer stop.

If your state requires deer stops

hammer it into place. If not, let it float. .

## Dakotaline Versatile Snares

Our 60" versatile snare is a good on about any critter from coon to coyote.

It's fast and tough and as with any DakotaLine snare, it's LOADED FOR SPEED.

- 60" of 3/32nd 7x7 cable
- Dakotaline Lopro lock
- Floating Deer Stop
- Poly support collar
- 9 gauge HD end swivel

## Dakotaline Deathblow Dispatch Compression

Deadly Snare for Cats and Coyotes

- 84" of 5/64, 7x7 Cable
- Deathblow Cam Lock
- 50 lb. Compression Dispatch Spring
- 285 lb. S-Breakaway
- Poly Support Collar
- Heavy 9 gauge Swivel

## Dakotaline Deathblow

# Dispatch Mini-Torq

## Deadly Snare for Cats and Coyotes

- 84" of 5/64, 7x7 Cable
- Deathblow Cam Lock
- Mini-Torq Dispatch Spring
- 285# S-Breakaway
- Poly Support Collar
- Heavy 9 gauge swivel

NOTE: When setting these snares the Mini-Torq spring can be cumbersome until you are used to it. If you bend the spring backwards, so that it sits behind the lock, it will help to balance the snare and not compromise the effectiveness of the spring.

## Dakotaline Smoothie Coyote/Fox

Our 60" Smoothie snare is a good choice on canines in a non dispatch situation. It's fast and tough and as with any DakotaLine snare, it's  
**LOADED FOR SPEED.**

- 60" of 3/32nd 7x7 cable
- Dakotaline Smoothie lock
- Poly support collar
- 9 gauge HD end swivel

## Dakotaline Thin Lock Coon and Beaver

These snares are made of 3/32nd" cable and are 48" long. They offer the Thin lock (AKA Slim lock) along with support collar and DakotaLine's HD 9 gauge snare swivel.

Comes with a tiny "floating" deer stop.

If your state requires deer stops hammer it into place. If not, let it float. All DakotaLine snares are LOADED for speed.

## Dakotaline Survival Snare Package

Small and light enough to fit in a day pack for a hiking trip. It's better to be prepared and not need them than need them and not be prepared.

This package contains 12 snares.

- 4 Dakotaline Rabbit/Squirrel Size Snares
- 4 Dakotaline Versatile Snares for Coon to coyote
- 4 Large Animal Sized Snares

## Dakotaline Thin Lock Fox Snare

### Dakotaline Thin Lock Fox Snare

- 60" of 7x7 5/64th cable
- Fur friendly thin lock

- Small "floating" deer stop
- Loaded for Speed

## Dakotaline Bobcat Snare

### DakotaLine Bobcat Snares.

- 60" of 1/16", 7x7 cable
- Poly support collar
- Heavy 9 gauge swivel
- Lopro lock

The tiny Lopro lock comes down quick on this loaded snare. Comes with a tiny "floating" deer stop. If your state requires deer stops hammer them into place. If not, let it float.

## Dakotaline Wolf & Hog Snare

## DakotaLine Hog/Wolf Snares.

These hog/wolf snares are made from 1/8" 7x7 cable. They have a support collar and an adjustable loop end. A tough, smooth closing cam lock stands up to the toughest of hogs/wolves. Each of the 4 snares are 84" in length.

## Dakotaline Lightning Coon and Beaver Snare

The Dakotaline Lightning Coon & Beaver snare uses an oversized 1/8" Blackdog Camlock that slams down like a pile of bricks when the critter hits the cable.

- 48" of 7x7, 3/32 Cable
- Dakotaline Blackdog 1/8" Camlock
- Poly Support Collar
- Heavy 9 Gauge Swivel
- Small "Floating" Deer Stop
- Loaded For Speed

### Deadly Snare for Bobcats and Coyotes

- 84" of 5/64, 7x7 Cable
- Deathblow Cam Lock
- 40 lb. Mini-Torq Dispatch Spring
- 285# S-Breakaway
- Poly Support Collar
- 12" Loop Stop
- 9 gauge end swivel

NOTE: When setting these snares the Mini-Torq Dispatch spring can be cumbersome until you are used to it. If you bend the spring backwards, so that it sits behind the lock, it will help to balance the snare and not compromise

the effectiveness of the spring.

## Dakotaline North Dakota Deathblow Dispatch Compression Spring

### Deadly Snare for Cats and Coyotes

- 84" of 5/64, 7x7 Cable
- Deathblow Cam Lock
- 50 lb. Compression Dispatch Spring
- 285 lb. S-Breakaway
- Poly Support Collar
- 9 Gauge End Swivel
- 12" Loop Stop

We recommend running this with at least a 6' extension to maximize the effectiveness of this snare.

## Dakotaline North Dakota Snare

The Dakotaline North Dakota snare meets all laws of North Dakota. It has"

- 60" of 7x7 3/32nd cable
- Dakotaline Lopro lock
- 285 lb. Break-Away device
- a poly support collar

- a heavy 9 gauge swivel to stake with.

NOTE: It also has a stop that restricts the snare loop from opening larger than 12"

## Dakotaline Michigan Coyote Snares

Meets all Michigan snare laws. This coyote snare offers the following features:

- 66" of 7x7, 3/32nd cable
- ADC Washer lock
- Inline Swivel and Heavy 9 gauge swivel
- Support collar
- 285# Breakaway Device

Note: Not suitable for fox or smaller animals. These snares are "loaded" for a quick closure. When a coyote hits it with his neck the snare comes down fast. There's no backing out with Dakotaline snares.

## Dakotaline Versatile Break-Away Snares

285 lb. Breakaway J-Hooke Break-

Away Snare is good on about any critter from coon to coyote. It's fast and tough and as with any Dakotaline snare, it's LOADED FOR SPEED.

- 60" of 3/32nd 7x7 cable
- 285 lb. Breakaway J-Hook
- 285 lb. Breakaway J-Hooke

Break-Away Snare is good on about any critter from coon to coyote. It's fast and tough and as with any Dakotaline snare, it's LOADED FOR SPEED.

- Poly support collar
- 9 gauge HD end swivel

# Drowner Cables & Snare Extensions

## Snare Extensions

Dakotaline Snare extensions allow you

to easily tie off to trees or a fence post.  
2 Fixed loops, one on each end. Add  
an extension to our Deathblow  
Dispatch Snare to maximize its  
effectiveness.

NOTE: WE NOW USE STEEL NUTS  
ON BOTH ENDS OF THE  
EXTENSIONS AS IT HAS A  
GREATER HOLDING POWER THAN  
THE ALUMINUM SLEEVES.

# Drowner Slide Cables Per Dozen

An easy and humane way to dispatch  
critters. Adjustable loop ends.

- 10'-1/8, 7x7 Drowner Cable
- 5'-1/8, 7x7 Drowner Cable
- 8'-3/32, 7x7 Drowner Cable
- 5'-3/32, 7x7 Drowner Cable

## DAKOTALINE 1X19 SNARES

1x19 cable offers some advantages and some disadvantages over 7x7 cable. 1x19 is stiffer and holds a nice round loop. It is also harder for coyotes to chew through and frays a little less easily than 7x7 cable, which allows us to use smaller cable (less visible) for coyotes. However, the stiffness of it is a little easier for the critter to feel. It probably feels less like a twig or small branch than 7x7. It's all about preference. Mark

## Dakotaline Deathblow 5/64, 1x19 Mini-Torq Coyote Dispatch Snare

The Dakotaline Deathblow 5/64, 1x19 Mini-Torq Coyote Dispatch Snare has the following specs:

- 84" of 5/64, 1x19 Cable
- Deathblow Cam Lock
- Mini-Torq Dispatch Spring
- 285# S-Breakaway
- Poly Support Collar
- Heavy 9 gauge swivel

NOTE: When setting these snares the Mini-Torq spring can be cumbersome until you are used to it. If you bend the spring backwards, so that it sits behind the lock, it will help to balance the snare and not compromise the effectiveness of the spring.

## Dakotaline 1/16th, 1x19 Bobcat Snare

One dozen 60" Bobcat Snares made from hard to see 1/16th 1x19 cable.

These snares feature the following:

- Dakotaline Blackdog Mini-Cam lock
- Poly support collar designed to fit #9 or #11 support wire.
- Heavy Duty Dakotaline 9 Gauge end swivel

An extremely fast snare Comes with a tiny "floating" deer stop. If your state requires deer stops hammer it into place. If not, let it float.

## Dakotaline 5/64, 1x19 Coyote Snare

One dozen DakotaLine Coyote Snares made from 84" of 5/64th, 1x19 cable. This snare feature the following:

- Blackdog Mini-Cam Lock
- Poly support collar designed to fit #9 or #11 support wire.
- Heavy Duty Dakotaline 9 Gauge end swivel

An extremely fast loaded snare. What is loading? We put tension in the loop making the loop rounder and causing the snare to close quickly when the

critter goes through it. Loading makes a huge difference in snaring percentages.

## Dakotaline 3/32, 1x19 Coyote Snare

Heavy Duty Dakotaline 9 Gauge end swivel from 84" of 3/32nd 1x19 cable.

These snares feature the following:

- Blackdog Mini-Cam lock.
- Poly Support Collar.
- 9 gauge Heavy Duty end swivel.
- Floating deer stop.

## Dakotaline Deathblow 1/16, 1x19 Mini-Torq Dispatch Snare

Deadly Snare for Cats and Coyotes

- 84" of 1/16, 1x19 Cable
- Deathblow Cam Lock
- Mini-Torq Dispatch Spring
- 285# S-Breakaway
- Poly Support Collar
- Heavy 9 gauge swivel

NOTE: When setting these snares the

Mini-Torq spring can be cumbersome until you are used to it. If you bend the spring backwards, so that it sits behind the lock, it will help to balance the snare and not compromise the effectiveness of the spring..

## Dakotaline 1x19 Live Catch Coyote Snare

Deadly Snare for Cats and Coyotes.

- 84" of 3/32nd 1x19 cable
- Will minimize chewouts!
- Blackdog LoproLock
- 4" Fixed Deer Stop
- Poly support collar
- 9 Gauge HD end swivel
- LOADED to close quickly

This is an Extremely fast snare!

## Dakotaline EZ Set Snares

Take your snaring to a new level in 3 EZ steps. Support wire, Stake, and snare all in one piece. 1. wrap the wires to a nearby tree, fence crawl through, or fence post 2. Adjust the wire to target animal height 3. open the loop and walk away.

## Dakotaline EZ Set Coyote Snares

Our Dakotaline EZ Set Coyote snare is excellent in areas where coyotes are going through trees or using fence crawl throughs. The Dakotaline EZ Set Coyote snare offers the following features: 3/32nd cable with Mini Cam lock. Max loop size of 12". Wire to a fence or shrub and go. No anchor needed.

## Dakotaline EZ Set Versatile Snares

Our Dakotaline EZ set Versatile snare will work on coon up to and including coyote. The Dakotaline EZ set versatile snare offers the following features: 3/32nd cable with Lopro lock. Max loop size of 10". Wire to a fence or shrub and go. No anchor needed.

## Dakotaline EZ Set Rabbit/Mink Snares

This is such a simple and efficient method of snaring. The support system serves as a swivel and anchor. Wire to a fence post, tree, shrub, fence wire, or stake. The support is made of two lengths of annealed soft wire. Once you try this system, you'll be sold.

3/64 cable with Lopro snare lock.

Max loop size of 3.5"

Loaded for speed
