

TRAPLINE TOOLS & ACCESSORIES

Rebar Trap Steaks

Washer Top - 1/2"

T-Top - 3/8"

All-In-One Snare/Stake Support

No more cutting support wires and

staking your snare separately. This system is fast and easy. Stake your snare with the 24" T-Top 1/2" rebar stake and support it with the 9 gauge wire that is attached.

Dakotaline Pro Snare Support

Used by Mark for the last few years, the Dakotaline Pro Snare support is very quick and efficient. Pound in the ground, support your snare, and go!

Pre-Cut Support Wires

The same support wire that we send out with our snare packages. Made of 9 gauge wire and approx. 36" long.

Annealed Wire

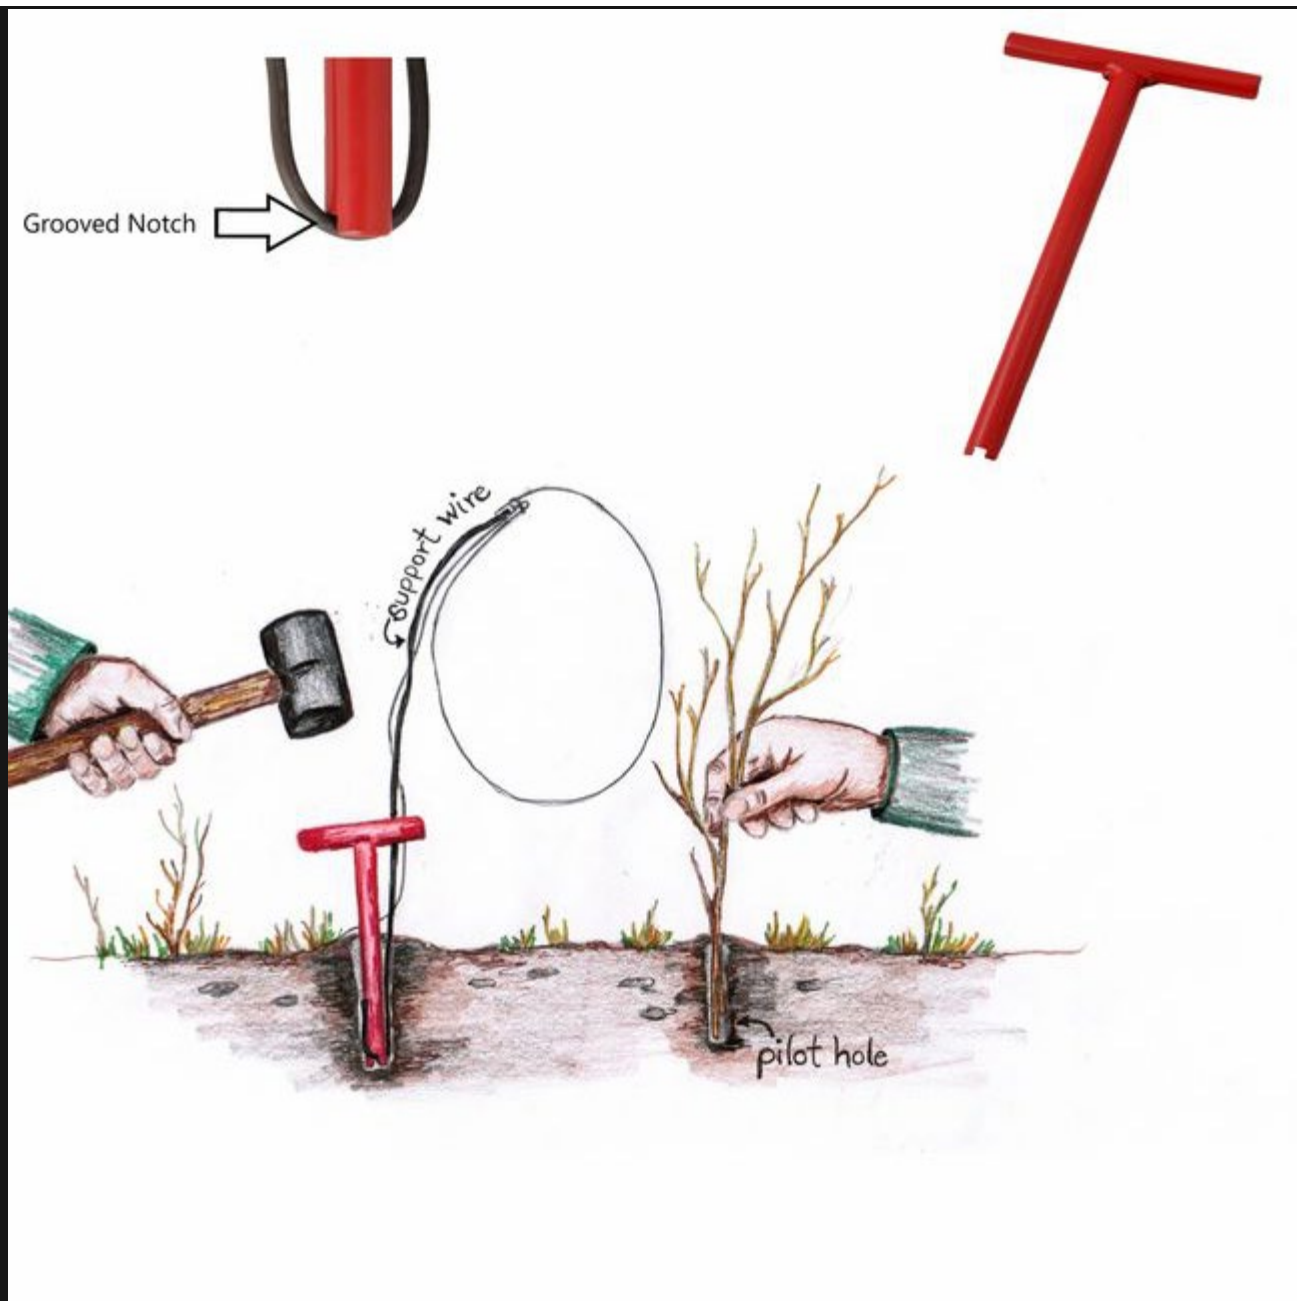

Trappers tie wire

Available sizes :

- 11 Gauge 3.5 lb.
- 14 Gauge 3.5 lb.
- 16 Gauge 3.5 lb.

Black 9 Gauge Support wire

- 3.5 lb.
- 10 lb.

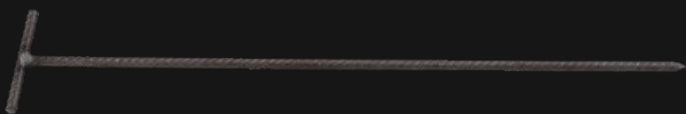

Redman Snare Tool

I am never without this tool when running snares. Speed is the key and the Redman snare tool makes this possible. A grooved notch in the end fits either 9 or 11 gauge wire and makes quick work of setting support wires. I also use this tool at almost every set for blocking. Simply pound a pilot hole and put in sticks or grass to guide the critter. Powder coated bright red makes it hard for even

me to leave behind. I typically hang three or more snares on a trail and am gone in a matter of minutes. - Mark

Cold Creek Stake Driver

Simplistic, yet durable this 3/8" driver is just what any trapper needs when driving in the Cold Creek Disposable Stakes. This has a Welded T-Top for added strength.

Cold Creek Disposable Stakes

The beauty of the Cold Creek Disposable Stake is simplicity. A 3/8" rebar point drives the anchor into the

ground and a quick tug sets the anchor.

Wolf Fang Earth Anchors and Driver

Wolf Fang Earth Anchors have a large surface area and are tough enough to be used in all soil conditions.

Replacement driver tips also available (requires welding).

Freedom Brand Saber-Tooth Drags

Saber-Tooth Drags weigh 2.65 lbs.

and is 12 1/2" long X 7 1/2" wide. It has a deflector rod and is constructed of 1" X 1/2" flat steel stock. This drag is made for the trapper who doesn't want to lose time tracking down coyotes.

Freedom Brand Saber-Tooth Drags Jr.

Saber-Tooth Drags Jr. weigh 1.25 lbs. and is 9 1/2" long X 7 1/4" wide. It has a deflector rod and is constructed of 3/4" X 3/8" flat steel stock. Great for fox sized animals.

The 2lb Hammer

A multi-purpose tool. Great for land trappers. The hammer head is 2 pounds and has a heavy duty red fiberglass handle . A chisel is welded on one side for easy digging. The total weight is approx. 2.5 pounds. Lifetime Warranty.

Black Dog Professional Trapper's Hammer (BDP)

We dare you to wear out the Black Dog Pro. The BDP was designed by trappers and engineers. At 18 5/8" long and a little over 3.5 lb., the BDP offers efficiency and comfort to the trapper. The workmanship is backed by a lifetime warranty.

- Made in the USA
- Chisel is T-1 Steel with a 90,000 PSI yield strength.
- Hammer head is C&C machined from 1018 cold rolled steel with a 57,700 PSI yield strength.
- Handle is ASTM A513, 1010 structural grade HREW.

Lightweight Metal Sifter

A must have tool for land trapping. This sifter is nice and light which helps the trapper avoid fatigue when running lots of traps.

Freedom Brand Heavy Duty Sifter

Built to stand up to many seasons of heavy use on your trapline. It is constructed of 14 gauge steel and 7/8" X 3/8" heavy duty, raised diamond pattern mesh. The sides are slanted making this sifter excellent for scraping

up dirt with any side.

Trowels

1. 25" D-Handled wide blade trowel is a work horse both on land and in the water.
2. 25" D-Handled narrow blade trowel is a work horse both on land and in the water.
3. 22" long, wide blade trapping trowel is built strong for years of use.
4. 22" long, narrow blade trapping trowel is built strong for years of use.

The Hangman by Barkers
Trapline Tools

"Hangman" for Muskrats. Made for 1/4-1/2" posts, the hangman easily and securely adjusts up and down the post. Once fired, it detaches allowing the muskrat to drown. The Hangman works on all Duke, Victor, Montgomery, and Northwoods coil springs. It is fast and effective.

Cold Creek Write-On Trap Tags

Zinc metal tags that you write on with a pencil. They never rust and are attached with a copper wire.

Cold Creek Aluminum BG Setters

Durable, lightweight setters that have matched aluminum handles and allows you to set any body grip trap with

ease. Lifetime Warranty.

Available in:

- Mini-BG Setter will set up to 220's
- Large-BG Setter will set up to 660's

Cold Creek Coil Spring Setter

The handles of these Coil Spring Trap Setters slip over the traps' levers giving you the extra leverage when setting strong springed traps up to #4's. Powder coated red so you can find them when you set them down. Lifetime Warranty.

Cedar Creek DP Setter

Slide the DP setter on the trap,
squeeze to compress the spring, and
set the DP with your free hand .
Powder coated and also has tubing
that helps hold the trap in place.

Cold Creek DP Setter

Easily compress ZTraps, Duke DP, or
Grizz style traps with this setter.
Powder coated red makes it hard to
lose. Lifetime Warranty.

Barkers Skunk Sleeper

Made for euthanizing skunks, the
Sleeper mount is a finely machined
aluminum syringe holder made
specifically for the trapper. It attaches
to a broom handle or paint stick.
*(NOTE: Fits most paint sticks or broom
handles, but will be a tight fit.)*

Included:

- 1-Aluminum Sleeper Mount

- 3-Needles
- 2-12 cc Syringes

Skunk essence is valuable. Harvest it with no smell. We suggest using Acetone. Any threaded broom stick will work, but a telescoping paint stick works best.
