

# TRAPPING HARDWARE

## Universal Swivels

Works as a stake swivel, drowning lock, and inline swivel. Each swivel comes with two 6 gauge J-Hooks.

## Cold Creek Super Swivels

Heavy duty swivel that will stand up to the nastiest coyote. Each swivel comes with two 6 gauge J-Hooks. Comparable in strength to the Crunch

Proof swivel.

## Box Swivels

An inline swivel that pays big dividends  
with fewer losses.

## Cross Stake Swivels

There's probably not a critter in North  
America that will budge a properly  
cross staked trap.

## Flat Stake Swivels

Flat Stake Swivels are far the best end stake swivel for land trapping. Minimal metal on metal make binding a non-issue.

## 6 Gauge J-Hooks

A Dakotaline Special Product! These are hands down the best made in the industry. Very heavy and can be opened and closed several times.

## Cold Creek 6 Gauge Long Neck J-Hooks

Another Dakotaline Special Product!  
These are hands down the best made  
in the industry. Very heavy and can be  
opened and closed several times.

## Drowner Locks

Used on drowner wires or cable.

Available in

- Long drowner lock
- Short drowner lock

**Cold Creek 6 Gauge  
Blackdog S-Hooks**

Works as a connector and can also be  
used to connect chain to your stake.  
Will handle the toughest of coyotes.

## Cold Creek Blackdog Sturdy Hooks

Many, many uses on the trapline

## Quick Links

Use to connect cable stakes to traps, snares to extensions, and many more uses.

## Split Rings

Used to connect drags to traps, snare extensions, and connecting cable stakes.

## Sleep EZ Springhooks

Durable, zinc plated Sleep EZ Springhooks easily screw open or shut with a gloved hand and can be used to connect traps to drowners, snares to extensions, and many more. Sleep EZ Springhooks will handle from muskrats up.

Available in:

- 2"
- 2 3/8"
- 2 3/4"
- 3 1/8"

Available in:

- #1.5
- #2
- #3
- #4
- 4-Coil springs also available.

## Chain

Chain available in:

- 2/0 twin link chain.
- #2 import straight link chain.
- #3 import straight link chain.
- #2 High grade straight link chain.
- #3 High grade straight link chain.

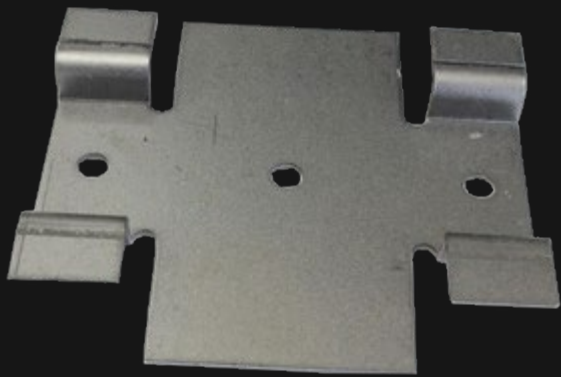

## Cold Creek Pinch Pans

The old pinch pans were tops when trapping mink and rats. Convert your 1.5 traps for a far better trap. Fits most 1.5 coil spring trap. Fast to change out. Hardware and instructions included

## Barkers BG Mounts

BG-mounts enable you to set more traps in less time at the exact location position you want them. Holds the trap at any angle-even upside down. The traps cannot twist, fall over, or be knocked over.

Available in:

- 110/120
- 160/220
- 280/330

## Cold Creek Snuggly BG Mounts

Made to snugly fit any brand body grip trap from 110-330. Spring steel and plated black, the Snuggly BG Mount gives trappers the versatility to mount their trap about anywhere. You can either get the mount itself or get the mount that has a 1.75" screw attached to it.

Available in:

- 110 thru 160.
- 110 thru 330.

## Base Plates

Base plates strengthen the frame of the trap and help prevent the frame from bowing when 4 coiling a trap. D-Rings are included with the base plates. Welding or bolting is required

.Available in:

- BP#1 - For #1 1/2 Montgomery, #1 1/2 Northwoods, #1 1/2 Victor, #1 1/2 Duke, #1.65 Bridger, and #1 3/4 Northwoods.
- BP#2 - For #2 Victor, #2 Bridger with 3/4" baseplates, #2 Duke, and #1.75 Victor Old Style.
- BP#3 - For #2 Montgomery, #2 Northwoods, #2 Bridger with 1" baseplates, and #5 Bridger.
- BP#4 - For #3 and #4 Coil spring traps.
- BP#5 - For #2 Bridger, #2 Montgomery, and #2Northwood.
- BP#6 - For #3 Montgomery, #3 Montana Special, #3 Sleepy Creek,

and #4 Victor Double Long Spring.

## D-Rings

Made to be used with baseplates, but can be used as a connecting device or with rebar stakes.

Available in:

- 3/4"
- 1"

## Bolt on BG Triggers

Fits all makes of traps. Won't fall off like the crimp on type triggers. Each contains, trigger replacement, brackets, trigger wire, bolts, and nuts.

Available in:

- #110
- #220

- #330

## Barkers Sanity Safeties

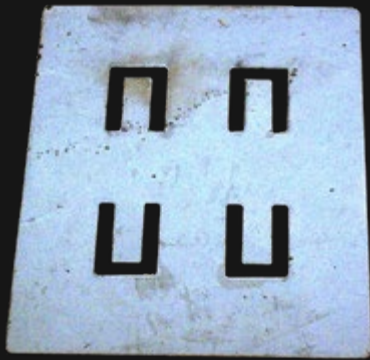

Available for the 160/220 sized body grip traps.

## Stop Shock Springs

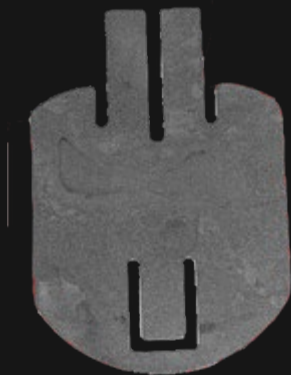

A Stop Shock Spring will help cushion the impact of an animal pulling and jumping which will help prevent the stake from being pumped.

## Barkers BG-Pan

Stop wondering which way to bend your trigger wires to get less refusals in your bucket sets. Barkers BG Pans get the wires out of the way allowing the animal an unobstructed path to the back of your bucket, box, or cubby. Once they step on the pan, it's over.

## Barkers Mink Pan I & II

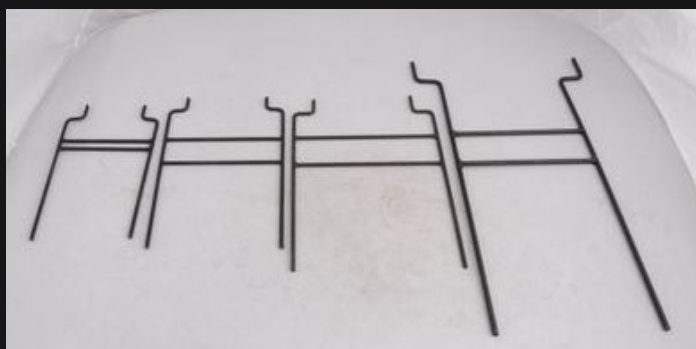

Buck mink travel long distances so that many times you only have one chance to catch them. The mink pan fastens to the trap pan to increase the pan size. By using the mink pan, you greatly

increase the chances of the foot hitting the pan. Extensive tests showed that by using the mink pan, that catches increased by 80%. Low cost, durable all steel construction, fast and easy assembly or disassembly.

Available in:

- Mink Pan I : For use with #1 and #11 traps.
- Mink Pan II : for use with #1 1/2, #1 3/4, and #2 Traps.

## Cold Creek BG Stands

The only stand in the business that is plated black. Durable enough to use in muck, light enough that they can be adjusted.

Available in :

- 110/120 - 11.25" Tall
- 150/155/160 - 13" Tall
- 220 - 14 1/4" Tall
- 280/330 - 23" Tall
